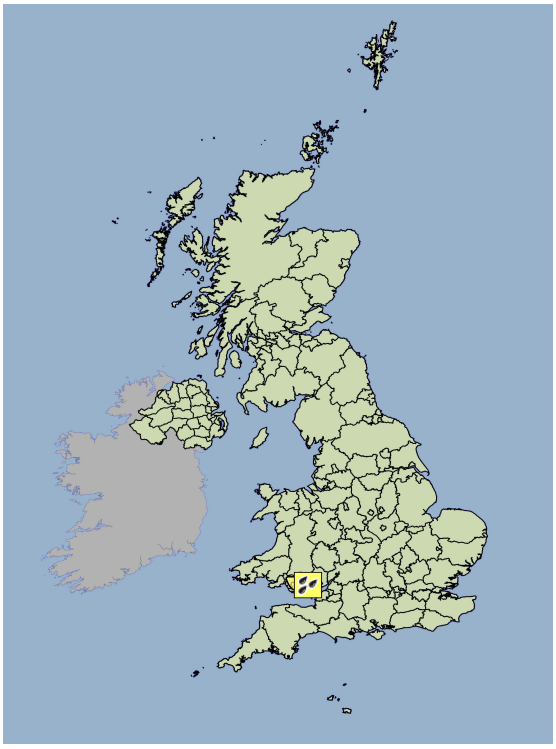
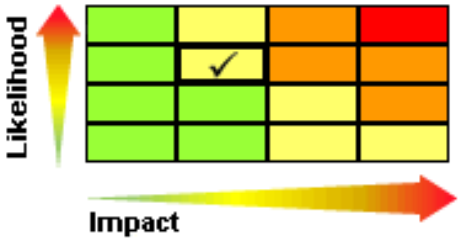
National Severe Weather Warning Service





Chief Forecasters Assessment
An active frontal system will move northeastwards across Wales on Monday evening and night. Following this afternoon's showers, this will bring a spell of persistent rain through the evening which will be heavy at times, producing rainfall totals of around 40 mm in 6 hours in places. This may lead to localised flooding of low-lying roads and some disruption to travel.

The rain will persist into the early hours of Tuesday morning but ease in intensity before clearing by late morning.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **17:00 on Mon, 01st Jun 2015** until **23:55 on Mon, 01st Jun 2015**

Rain will become persistent and heavy on Monday evening, before easing after midnight. The public should be aware of the risk of some localised flooding and disruption to travel.
